

Bundle of Bunches!

The Lottery offers three ways to get a sampling of draw-style game tickets in a single purchase! Ask for them by name at your favorite retailer.

\$5 LA Bunch

A single-play ticket for Lotto and Easy 5 plus a \$1 Straight play for Pick 3, Pick 4 and Pick 5 for \$5.

\$9 Jackpot Bunch

A single-play ticket for Lotto, Easy 5, Powerball and Mega Millions for \$9.

\$12 All In Bunch

A single-play ticket for every jackpot game plus a \$1 Straight play for Pick 3, Pick 4 and Pick 5 for \$12.

All tickets generated in each bundle are Quick Picks valid for the next regularly scheduled drawing. The cost is equivalent to the purchase of individual tickets contained within the bundle.

Multidraw

Multidraw allows you to play all of the numbers on your ticket for multiple drawings. Powerball, Mega Millions, Lotto and Easy 5 can be played for 20, 10, 5, 4, 3 or 2 consecutive drawings. When claiming a prize on a multidraw ticket, you will receive an Exchange ticket valid for the balance of any drawings remaining.

Ways to Play

Paper Playslip. In blue or black ink, fill in your numbers and game options on a paper playslip available in the retailer's Lottery Play Center. You may play up to five sets of numbers on each playslip.

Digital Playslip. Select and save your numbers and game options on our official app and show the resulting code at checkout for your ticket to print.

Ask the Retailer. If you want a Quick Pick, tell the clerk. You can play up to 10 Quick Picks on one ticket.

Replay Feature. To play the same numbers, number of drawings and game options as on a previously played ticket, present it to the retailer and ask for a Replay.

Be sure to check your ticket for accuracy BEFORE leaving the store! Jackpot game tickets cannot be canceled!

When to Play

Tickets for Lotto and Easy 5 must be purchased by 9:30 p.m. on the night of the drawing. Tickets for Powerball and Mega Millions must be purchased by 9 p.m. on draw nights. Tickets purchased after their respective draw close are valid for the next drawing. No Louisiana-based drawings are held on Christmas Day or Easter Sunday, but Powerball and Mega Millions can be conducted on Christmas Day.

2. For security purposes, you are encouraged to sign the back of your ticket immediately after purchasing. Keep your ticket free from heat and dampness; an original, readable ticket is required to claim a prize.

Player's Care for Tickets:

PLAY RESPONSIBLY.

3. Use the Louisiana Lottery Official Mobile App to scan the front barcode of your tickets to check their status, including whether they are winners and the prize won.

4. When cashing a winning ticket at a Lottery retailer, pay attention to the customer display for information regarding the value of your ticket. You may also ask the clerk to print a receipt for you with this information. If the display indicates the ticket is not a winner, you may request the return of the ticket. If the ticket's value is more than \$600, which is the maximum amount a retailer may pay, you will be instructed to visit a Lottery office.

Starting Jackpot
\$20 Million
Avg.

Overall Odds: 1 in 25
Cost Per Play/Per Drawing: \$2/\$3 with Power Play

Game Features

Join players from across the country to win multimillion-dollar jackpots – plus eight other prize levels – every Monday, Wednesday & Saturday. To play, choose five white-ball numbers from 1 through 69 and one Powerball number from 1 through 26. Pick your own numbers or let the Lottery's computer randomly Quick Pick them – for either or both sets of numbers.

How Power Play Works

Add Power Play to your ticket for an extra \$1 per play per drawing to increase any nonjackpot prize! During the drawing, a Power Play multiplier is randomly selected from a pool of 42 balls consisting of two 5s, three 4s, thirteen 3s and twenty-four 2s. A X10 multiplier is also added to the field whenever the advertised annuity Powerball jackpot is \$150 million or less. Powerball prizes for the bottom seven prize levels are multiplied by this number, and the \$1 million match-5 prize is doubled to \$2 million for those winners who purchased Power Play. (See prize chart below).

Starting Jackpot
\$50 Million
Avg.

Overall Odds: 1 in 23
Cost Per Play/Per Drawing: \$5

Game Features

Join players from across the country to win multimillion-dollar jackpots – plus eight other prize levels – every Tuesday & Friday. Pick your own numbers or let the Lottery's computer randomly Quick Pick them – for either or both sets of numbers.

How the Multiplier Feature Works

A multiplier feature comes with your ticket to multiply any nonjackpot prize won by up to 10 times! A unique multiplier (2X, 3X, 4X, 5X or 10X) will print on each board on the ticket. Any nonjackpot base prize won on that board will be multiplied by that number. The multiplier assigned to the play will stay the same when cashing in an Exchange ticket, but is randomly assigned for any new wager generated by a playslip or Ticket Replay. (See prize chart below.)
