PROGRESSIVE JACKPOT FAMILY

Louisiana JACKPOT

This fall, be on the lookout for a NEW type of instant-win family of games with Fast Play! Louisiana Jackpot will be available at the \$2, \$5, and \$10 price points. The jackpots for all three price-point games are combined for one advertised jackpot. The games will start with a minimum jackpot, and once the jackpot is funded through sales, it will increase based on sales from the three games. The portion of the jackpot that can be won by a ticket depends upon the ticket's price point.

For example,
if a \$2 ticket hits the jackpot, the player wins **20%** of the advertised jackpot.
if a \$5 ticket hits the jackpot, the player wins **50%** of the advertised jackpot.
if a \$10 ticket hits the jackpot, the player wins **100%** of the advertised jackpot and the advertised jackpot resets to the starting amount.
 If a \$2 or \$5 ticket hits the jackpot, the advertised jackpot will be reduced by the applicable percentage.

Actual final ticket design may vary slightly from prototype presented.
